

10th July 2026

Dear Parents, Carers and Families

After reviewing the weather forecast for next week, although there are some hot days, there are also predictions of some cooler days.

However, to ensure consistency for the whole week and to prevent families awaiting daily communications from myself and also to support consistency for our learners, we have made the decision for our young people to choose to wear either of the following as school uniform from Monday 13th July 2026 to Friday 17th July 2026:

- School uniform trousers/skirts with a white shirt (long or short sleeved) without their tie or blazer. These items can be left at home.
- Full school PE kit.

To help students stay safe and comfortable in the heat, please ensure that your child brings a refillable water bottle to school each day. We have water fountains available in all school buildings and canteen areas, and students will have opportunities during breaktimes to refill their bottles throughout the day.

As a reminder, indoor areas are available for all year groups during breaktimes for those who wish to stay cool and out of direct sunlight.

We strongly recommend that students apply high-factor sunscreen before coming to school and bring additional sunscreen with them if they may need to reapply it during the day. Appropriate sun protection is important to help prevent sunburn and heat-related illness.

Our PE team will make daily professional judgements as to what PE lessons will entail to ensure students are not in direct sunlight and / or overexerting themselves in the heat.

Thank you for your support in helping us keep our students safe and comfortable during the warmer weather.

Yours sincerely

Mr T Muller-Forster
Headteacher
