Post Results Policy

2025-26

A Guide to Post Results Services

If you are not happy with your exam results, there are several options available to you.

For exam-based results, you can ask for:

- A clerical re-check
- Review of marking
- Access to scripts

None of these Post Results services are officially a remark, they are different ways the exam boards check that mark schemes have been applied correctly and marks added up accurately.

There is no grade protection for review of marking. This means that your marks and subject grades may be lowered, confirmed or raised as a result.

For us to process any application for review, you must give permission in writing.

Charges apply.

Most qualifications have multiple papers or components i.e. Maths has 3 papers; Science has 6. All requests and associated fees are **per paper, component or unit**. You may request a copy/check or review of more than one paper but there is a charge for each one.

All requests must be made to the school, students/parents cannot apply directly to the exam board.

The school will not process any of these until the consent form, completed by the candidate is received with payment.
